|  | <p>Saran Wrap</p> <p>One key to the success of a custom hair system is its fit; the base of the system must correspond to the head shape and frontal recession desired. Making a tape template of the head, which is transparent and can be drawn upon, is the perfect solution to achieving a perfect fit.</p> <ul style="list-style-type: none">➤ Place a sheet of clear plastic saran wrap on your head and wrap the sides under your chin like a bonnet. Lightly tie the ends together. (not shown in picture)➤ Press the saran wrap close to the head to remove any wrinkles. |
|  | <p>Template Pattern</p> <p>Using a Sharpie permanent marker, outline the bald area right at the hairline. Draw in the frontal hairline with the desired recession. The frontal hairline is usually located ~ 3-4 finger widths above the eyebrows.</p> <ul style="list-style-type: none">➤ After the entire outer perimeter of the pattern is drawn, the desired hair direction should be indicated with arrows.➤ If a part is desired, indicate where you would like it. |
|  | <p>Forming the Template</p> <ul style="list-style-type: none">➤ Beginning at the forehead, place strips of strapping /scotch tape over the saran wrap.➤ Apply 3 layers of tape; 1st layer lengthwise, 2nd layer widthwise, 3rd layer lengthwise➤ The tape will lock the saran wrap into a 'semi-hard' shell. |
| | <p>Final Steps</p> <p>Remove the shell from your head, turn inside out and note the outer line that was previously drawn.</p> <ul style="list-style-type: none">➤ Trim the excess saran wrap off with a pair of scissors.➤ Write your last name on the template.➤ Indicate the front of the template with an 'F' and the back with a 'B'.➤ The remaining semi-hard shell will be mailed to the factory along with the design brochure / order form and hair samples to create your unique customized hair system! |
